From an uncontaminated millenary spring, the **FRAIS MONDE THERMAL COSMETICS** has been born from a long tradition of pharmaceuticals for more than a century. Repole's water-based sulfur water, whose dermatological properties are recognized by the Ministry of Health (d.d. 6.6.2011), thermal cosmetics are extraordinarily effective and natural.

Repole water recognizes the condition of your skin, it protects the epidermis functionality. Thermal cosmetics are innovative and indispensable. An irresistible well-being. All the value moves to the skin.

The cosmetics that start with an added value compared to all: Repole's water. What for all is an excipient for Frais Monde is already an active principle of certified activity.

#### **ETHICAL PRODUCTION**

Without peg, without parabens, without nickel, without chemical derivatives and animal derivatives, without paraffins, silicones and mineral oils.

**DERMATOLOGICALLY TESTED - NO TEST ON ANIMALS**
